THE FLOODED WESTERN LANDS.

A VAST LOSS OF PROPERTY.

SCENES OF DESTRUCTION ALONG THE MISSOURI AND

Sr. Louis, June 25 .- The chief apprehension last

night was that the track of the Vandalia Railroad,

would be flooded. This track is north of the Ohio

and Mississippi, and is much lower than that road,

and will bear but little more, The Ohio and Mis-

sissippi is above the flood line of 1844, which was

several feet higher than the present rise, and there-

fore, no apprehension is felt for it. Advices and

dispatches from different points on the Missouri

River state that nearly all the bottom lands along

the river are inundated, and that hundreds of thou-

sands of dollars worth of crops have been totally

destroyed, and that thousands of acres of splendid

farms are laid waste. Reports of the same kind

come from places on the Mississippi River between

here and Cairo. The river rose three inches here

The river is still rising slowly, but the situation

both here and in East St. Louis is practically un-

changed. The Bowman dike and other weak

points are constantly being strengthened. Threats

were made last night to cut what is known as the

Madison County dike, a high embankment run-

ning eastwardly from the river for about a mile and

a half, and midway between Brooklyn and Venice,

but after a long and angry wrangle between a num

ber of the inhabitants of the former place and some

people living north of the dike it was decided that

nothing should be done until to-day. As the cut-

ting of this dyke would let more water into Brook-

lyn and inundate all that part of the town already

submerged, the people were very determined and

guarded the levee all night with shotguns and other

weapons, but so far as known no attempt was made

to interfere with it. A large volume of water still

flows through the breaks made yesterday in the

before the present flood has receded to any great extent. Should this be the case the situation will become alarming, and the destruction of property

along both the upper and lower rivers will be ap

LEADING TOPICS AT MANY POINTS. LOSS OF LIFE IN A PLAY-HOUSE-QUEEN VICTORIA'S

HEALTH-FATAL AFFRAY BETWEEN IRISHMEN. Forty-seven lives have been lost by the burning of a hall, in which an entertainment was being given, at Dervio, on Lake Como. The cries of fire were at first thought by the audience to be a part of the performance. Further evidence in the Jewish murder trial in Hungary was taken. Queen Victoria's health is said to be improved. The lower house of the Diet has passed the Prussian Church bill by a vote of 224 to 107. Five men were killed during a fight on Sunday night between North Mayo and Dablin militiamen. Mr. O'Donnell, M. P., has left the Parnell party. Lynch, the informer, has been released.

FATAL FIRE IN AN ITALIAN PLAY-HOUSE. FORTY-SEVEN LIVES LOST-TWELVE PERSONS IN-

JURED. LONDON, June 25 .- News of a frightful calamity at a place of amusement in the town of Dervio, on the shore of Lake Como, has just been received here. While a performance was in progress at a puppet theatre at that place the structure took fire and was entirely destroyed. Forty-seven persons lost their lives and twelve others were injured.

DERVIO, June 25 .- The show was held in a large hall over a tavern. There were ninety persons in the hall. A Bengal light was used to represent fire, the hall. A Bengal light was used to represent fire, and sparks from this set fire to a quantity of straw and firewood stored in an adjacent room. On perceiving the flames the showman shouted "Fire!", but the spectators thought the cry was merely a realistic detail of the show, and remained seated. Cries of fire were soon raised outside the hall. The andience, thinking an affray had arisen in the street, barred with a heavy table the door leading from the hall. They did not discover their mistake until the flames burst into the room. After the fire was extinguished forty-seven charred corpses were found near the table, including the bodies of the showman and his wife.

and his wife.

LONDON, June 26.—Most of the dead bodies at Dervis are those of women and children. The wounded were hurt by leaping through the windows. A child was flung out of a window by its mother and fell upon a pile of straw. This is the only one of the spectators present in the hall that was not burt.

THE JEWISH MURDER CASE IN HUNGARY. London, June 25.—The development of further scandals at the trial at Nyreghnaga, Hungary, of the Jews charged with murdering a Christian girl has given rise to the belief in some quarters that the presecution will have to be abandoned. Several Jewish witnesses for the defeuce testified that they had either been threatened at the preliminary injuiry or that statements which they had never made had been inserted in their depositions.

It has been elicited that Esther Salomossy, the girl said to have been murdered, had quarrelled with her mistress shortly before she disappeared, and that the friends of the girl, when they missed her, had the idea that she might have committed nuicide. The employer of a sister of the supposed-to-be-dead girl testified to-day that he met Estuer in hour after the murder is alleged to have oc-

## RUSSIAN WAREHOUSES BURNED.

St. Petersburg, June 25 .- Several waretouses used for storing herrings and cotton, on the island of Gutujewsky, at the mouth of the Neva, took tre this afternoon. M. Grigoriet's warenouses and saw uilis, most of the private houses, a steam flour mill beouring to the Crown, a chomical factory, a hone mill, and a cotton store, with 3,000 bales of cotton, were testroyed. Several vessels in the river were also burned. The loss so far is 1,500,000 roubles.

TROUBLE IN THE VIENNA UNIVERSITY.

VIENNA, June 25 .- Herr Massen, rector of the university, made a speech in the Diet recently in which he spoke against the Germans and in favor of the Czechs. Sixty-three out of seventy-four professors of the university have signed a protest denying that they sympathize with the views of the rector. The students have also shown their disapproval of his remarks by backing a flotous demonstration against him.

RIOTOUS DOINGS IN GUAYAQUIL.

PANAMA, June 16 .- An effort is being made by Veintimilia to effect an arrangement with the rebels. A panic reigns at Guayaquil, where robberies are frequently committed by the soldiery. The people shut themselves in their houses at night and the streets are deserted. Skirmishes occur daily, but with no other resuit than the loss of a few lives. Alfaro and Sarasti, the rebel leaders, are determined not to attack in such a manner as to imperil the safety of the city.

Intense excitement and indignation have been caused in Colombia by the insult offered to the Colombian Cou-nil is Guayaquil by one of Veintimalia's officers. The Estandarie, of Bogots, says that "Blood only avenges gain jusuits," and demands that war be declared

THE SLAVE TRADE IN SOUTH AMERICA. PANAMA, June 16 .- Advices from Bolivia Kate that the greatest lawlessness prevails in the De-

partment of Beni, although there are prefect and other authorities in the Department who are appointed by the Government, and the Indians are openly captured and forced to work or sold into slavery in other districts.

A correspondent writing from Beni says: "The manner in which the Indians are disappearing from this Department is truly terrifying. The scandalous traffic in these unfortunates continues and will always continue; and there is no human power to correct this borrible abuse. All the decrees and the efforts of the authorities are powerless before Brazilian gold, which can be easily obtained in return for men and women who are stolen from their families."

These Indians, when not employed in the immediate vicinity, are sold off in droves to work on the plantations in the heart of Brazil. It is a fact that regular slaving expeditions visit many of the unexplored tributaries of the Amazon; and that crucities as horrible as were ever perpetrated during the days of the African slave trade are of common occurrence in the inland waters of the South American continent.

CHILI AND THE PERUVIAN LEADERS. PANAMA, June 16 .- Letters by the last steamer announce that if is believed the Chilians will gradually evacuate the north of Peru, under the treaty made with Iglesias, and that he will first establish his

Government in Trujillo and other leading towns before

he goes to the vicinity of Lima. Many of the towns are holding meetings and declaring for peace and Caceres. The Arcquipa Congress has made Calderon President, Montero Vice-President, and Caceres ond Vice-President, thus leaving matters unchanged. The new Cabinet formed by Montero does not contain the name of a single individual hitherto known. The idea is general in Lima that an effort is being made to reconcile the two Peruvian Governments on the basis of

the treaty signed by Iglesias. The Cajamarca Congress closed its sessions on April 28, after passing a law authorizing the Government to call an election for a Constituent Assembly. The Congress issued a manifesto urging the people to work together to promote peace and strengthen and support the Government of Iglesias until the general elections

the Government of Iglesias until the general elections can be held.

The speech delivered by the President of Chili at the opening of Congress clearly evinces that a probability of and a cestre for peace exist. "The Peruvian people," he said, "wearied by the exactions and struggles of these cartisan leaders, have leet a willing ear to a patriotic solmer, one of their most distinguished generals [Iglesias], who has in a manner agreed to our terms, and aithough the treaty of peace is not signed, I am in hopes that it will soon be finally sanctioned. Our relations with Bonivia are, I trust, shaping themselves towards readjustment."

with Bonvia are, I trust, shaping themserves towards readjustment."

A fearful explosion has taken place in the Buen Retiro coal mine at Coronel, which set fire to the mine. The number of killed is believed to be very large.

The report is confirmed that two brothers of Tynan—"Number 1,"—are residents of Valparaiso.

Campeto, the Bolivian Freedoent, has punished Señor Iranzes, Entior of La Pairia, for having written several articles in layor of peace. Señor Iranzes was selzed by the police, his cars were bored, and he was then dressed in a suit of coarse cloth woven by the Indians for their use.

PANAMA, June 16. - Accidents on the Panama Railroad have become of daily occurrence. The business done by the line increases daily, but no effort seems to be made to keep the road bed in good order. Another riot has occurred at one of the sections of the canal works-due to a dispute between a Jamaican and

butcher drew a revolver and shot the Jamaican through the cheek. The camp at once formed into two parties, Jamaicans against natives, and very soon there were a half dozen wounded. The aggressor was finally made a prisoner by the soldiers in order to save his life, as the Jamaicans were determined to kill him.

## RUMORS ABOUT PARIS BANKS.

New-York correspondents of French banks doubted the authenticity of the disputch from Paris, published yesterday, which predicted the immediate collapse of the Crédit Générale Française, the Crédit Lyonnaise and other banking institutions in Paris. It was admitted frankly that business at the French Bourse had been stagment for a long time; in fact, ever since the failure of the Union Générale in January, 1882—but the danger of widespread disaster was considered very small. In regard to the stability of some of the instit tions named in the published dispatch little could be learned in this city. "Some of these companies have been talked about a good deal," one banker said, "but that fact does not prove them insolvent. It may be that they will be carried through successfully. I suppose that a few of them may not be above suspicion, but the that a few of them may not be above suspicion, but the intimation that nearly all the financial companies of Paris are on the verge of bankruptcy is absurd."

In the private dispatches received from Paris it was said that there was no allusion made to the rumored embarrassment of any of the prominent banking companies. At the office of Plock & Co., the New-York correspondents of the Baron Erlanger, it was said that there was not the shadow of a doubt of his financial solvency. Nothing was known about the suits which it was stated had been begun against him, but it was sumised that they referred to some old matters in which he might have been engaged.

#### CROOK'S APACHE PRISONERS.

MEETING OF THE CAPTIVE CHIEFS-THEY WANT

TO GO TO THE APACHE COUNTRY. WASHINGTON, June 25 .- The following dissatch from Agent Wilcox, dated at Wilcox, A. T., June 24, was received at the Interior Department to-day: "The renegade Indians were forced on the reservation yesterday. Shall arrive at San Carlos Tuesday." Upon receipt of this telegram Acting Secretary Joslyn imme diately brought it to the attention of the Secretary of War, who assured him that the agent must be in error. as he had given positive orders to General Crook to keep the renegades apart from the other Indians. He added that he would reiterate the orders to General Crook. A

that he would reiterate the orders to General Crook. As Wilcox is distant nearly one hundred miles from San Carlos, it is beineved at the Indian Office that the agent has been misinformed.

General Crook has been ordered by direction of the Secretary of War to proceed to Washington at once for consultation as so the final disposition to be made of the captured Apaches. The War Department has received no official information of the reported arrival of the captives at San Carlos, and it is stated that no instructions to send them there have been sent to General Crook.

San Francisco, June 25.—A dispatch from the San Carlos reservation states than by order of General Crook to Indians of the reservation were called by the commanding officer of that post to meet returned Chiricalmus and give expression to their views regarding their remaining on the reservation. The meeting was presined over by the commanding officer and was addressed by Loco, the chief of the Warm Spring Indians, by Bouito, leader of the party that killed Judge McComas and his wife and captured his son Charles; by Monago, sub-enter, and by Nana, chief of the remarks was that they were giad to get back to the agency and be under the profession of General Crook. They said they would settle down and be good Indians. They said they had no friends at the San Carlos Reservation and wanted to go to the Apache country and be with friends. From the tone of the speaches of the captive chiefs it was plain they realized the meeting was significant.

This morning Striker and Villiers went bathing in midlake, taking the valet along to rov the boat. They were both good swimmers, but the valet could not swim. Striker and Villiers were in the water about half an hour, when the former suddenly appealed to the valet and then to Villiers for help. The valet threw an oar to him and Villiers swam to his friend's assistance and supported him in the water for some time, the colored man at the same time

calling to the shore for help. Several men started in boats to their rescue. Geo. Rogers, a fisherman and sculler, was the first to Rogers, a fisherman and soulier, was the first to reach the scene, but before he got there Striker had sank, and Villiers was thoroughly exhausted and almost ready to give up. In order to save his own iffe Villiers was compelled to tear himself away from his friend. This evening Villiers had not recovered from the effects of his experience. Several friends of the family reached here from New-York on the late special to-night, and they will take the remains back with them to-morrow. The body was found at a late hour this afternoon, and the coroner's jury brought in a verdict of accidental drowning. This is the first case of drowning that has occurred at the lake in a year.

Mr. Striker was twenty-four years of age. He was the sen of the late George Henry Striker, of this city, and the grandson of General Garritt Striker. His home in this city was in the Garfield Flats, No. 340 West Fifty-sixth-st. # RAILWAY INTELLIGENCE.

OPENING OF THE WEST SHORE TO KINGSTON THE FIRST TRAIN TO NEW-YORK-INCIDENTS OF THE

TRIP. Kingston, N. Y., June 25 .- Promptly at the our appointed this morning the first regular passenger train for New-York by the West Shore Railroad moved up to the new Union Depot in this city. A large crowd had assembled to see the start. A large number took passage for New-York and interpoints. The train was composed of t-class coaches, one smoker and one two first-class coaches, one smoker and one baggage car, and was in charge of conductor E. A. Whitmore. The engine, No. 15, in charge of Joseph Johnson, was decked with flags and flowers. A general expression of admiration ran through the crowd, which was taken up by a band of music, the pealing of city bells and the booming of cannon. In a few minutes the train was travelling through the tunnel, and then went slowly over the high bridge where it leaves this city. Then the road lies through a fine farming and fruit region a little back from the river until nearly opposite Hyde Park, where it sweeps down to the shore, which it bugs closely until near Haverstraw. Then it leaves the river, goes through a long tunnel and runs back of the

All along the route from Kingston to Newburg, which was first opened to-day, crowds of people, fruit-growers, farmers, merchants, all classes, were assembled at the stations and crossings to see the first regular railway train run through their lands and villages. No attempt will be made to make rapid time on this road until it is thoroughly ballasted and settled. Thirty five miles an hour is the utmost limit permitted at present even when behind time, and the time from New York here is now three and one-half hours. But it is proposed eventually to make this 88.3 miles in two hours. The opening of this road to Kingaton, in addition to its vast importance to the populous and productive section along this fertile west shore of the river, is also of the utmost consequence to the Catskill summer resorts and the numerous visitors there. It establishes a short all-rail connection between that region and New-York and Philadelphia. Tickets are sold through to all the leading mountain hotels. Leaving New-York by the Kasterskill Express at 11 a. m., with parlor cars attached, visitors can reach any of the large hotels in the mountains in ample time for an early supper by daylight. The line will be opened to Aliany on July 9, and, it is said, to Syracuse two months later; and by the end of the year the company hope to run trains through to Buffalo. The read traverses a rich and populous section of the State, reaching seven of the theory-two great cities of the United States naving a population of 50:000-cach. The farms along the road are valued at \$619.000.000, the annual preducts averaging \$111,000,000.

#### EFFECT OF THE TRUNK-LINE POOL. (BY TELEGRAPH TO THE TRIB UNE. ]

Boston, June 25 .- The Journal says: "One of the strongest evidences we know of in connection with the present firmness of the trunk-line pool is the fact that its very strength bids fair to strangle the foreign commerce of Boston. New-York City, as all acknowledge, owes its prominence in commerce to the fact that the cheaper rates of transportation via the Eric Canal summer months, while during the winter its railroads place it upon a par with other cities. Before last summer, when the trunk-line pool was a reality instead of a farce, as formerly, our Boston steam lines running to England, etc., were supplied with outward cargoes. But with the spening of the Eric Canal in 1882 with its cheap freights and the refusal of the trunk-line managers to grant Boston a rebate upon grain destined for export, as reported by the Boston roads, the foreign steamships found it very difficult to load their vessels here, and the consequence, as will be remembered, was that many steamships went to other ports (some of which have not returned), and it was only with greadifficulty a large share of the remaining vessels secured cargoes. In several instances the lines even paid for the privilege of carrying grain across the ocean to Liverpool and Gla-gow. The present season the same difficulty confronts the export of the city and in a more or less degree the impore trade. The managements of the several roads terminating here have p-lationed the trunk-line magnates in favor of allowing hoston a special relate upon grain for export in sufficient quantities to load the regular lines of steamships running between Boston and England. It would seem as if this differential rate should be allowed hoston, but as it would conflict with the pool arrangement with other very encouraging since, after duly considering the subject, the trunk-line presidents have refused to grant the prayer of the petitioners." difficulty a large share of the remaining vessels secured

#### THE OHIO RIVER POOL.

CINCINNATI, June 25 .- Representatives of the railroads between Chicago and the Ohio River known as the Onio River pool, met here to-day for the purpose of establishing a freight and passenger traffic an agreement. Messrs. Stahlman, Ingalls, Waite, McCulough and McCrea, general managers, are here, besides the freight and passenger men from all the interested toads. A committee was appointed, consisting of general managers, to present a basis, and they are now at work perfecting details. It is not likely that the work will be completed to-day. The indications are that a arranonlous agreement will be finally reached.

THE CHICAGO, ROCK ISLAND AND PACIFIC. CHICAGO, June 25 .- The annual report of the Chicago, Rock Island and Pacific Rallroad for the fiscal year ended March 31 last has just been made public. It gives the following statement: Gross earnings, \$12,189,902; operating expenses, \$7.189,816; net earnings, \$5,080,086; receipts from land sales. \$560,000; net revenue. \$5,640,086, out of which was paid interest on the bonded debt, rentals, leased lines, dividends, etc., amounting to \$4,033.144; surplus for year, \$942,000; balance carried to the addition and improvement account. The capital stock and stock and bonded debt is \$59,460,000.

A CONTRACT MADE FOR A CANADIAN ROAD. MONTREAL, June 25 .- A contract has been given out to L. M. Shute, of Philadelphia, to build a line of railway from Cornwall to the Sault Ste. Marie, a distance of about 700 miles. At the latter terminus the promoters of the read expect to make connections with the Northern Pacific Railway. They claim to have power to construct a bridge over the St. Lawrence in order to obtain eastern connections.

THE MILWAUKEE AND ST. PAUL. MILWAUKEE, June 25 .- Raitway men think the Chicago, Milwaukee and St. Paul Company have got permission to continue certain Government surveys in Dakota at their own expense, because they are desirous of pushing their road on to Bismarck.

THE KAATERSKILL RAILROAD. RONDOUT, N. Y., June 25 .- The Kaaterskill tallroad was opened for business to-day. This line, with its connections, forms an all-rall route to the top of the Catskill Mountains.

A ROAD IN THE HANDS OF RECEIVERS. The Richmond and Alleghany Railroad was pinced in the hands of receivers on Saturday in a suit brought in the Richmond City Circuit Court by the second mortgage bondholders. The company defaulted in the payment of the interest on its second mortage bonds on May 1, and in anticipation of a default on the first nortstage bonds, the interest on which will fall due on July 1, the present suit was begun, with the consent of

July 1, the present suit was begun, with the consent of persons interested in the road. The receivers are Decatur Artell, of Richmond, vice-president of the company; and Laurence Myers, of New-York, one of the directors. The suit was brought by Asibel Green and Thomas S. Boocock, the trustees of the second mortgage.

The road extends from Richmond to Williamson's, a distance of 230 miles, with a branch to Lexington. The company owns the James River and Kanawha Canal, which includes water power and docks on the James River. It was intended at first to extend the road to a connection with the Onio Central, and two years ago it was voted to consolidate it with that road. The stock of the company is \$5,000,000, and the innied debt consisted of \$4,925,000 first morigage bonds. One of the directors of the company said yesterday that the property had been placed in receivers' hands to force a reorganization of the companys.

MORE TRAINS TO CITY HALL WANTED. Complaint is made of the irregularity of the trains that connect Chatham Square with the City Hall terminus of the Elevated Railway. It is a regulation after 9 o'clock in the morning until the "shuttle" trains are put on that every third train from Harlem on the Third-ave, road shall run through to City Hall, but this not strictly adhered to, and the decays which business men suffer are annoying and vexatious. Yesterday morning an interval of twelve minutes elapsed between two City Hall station trains, four South Ferry trains pass-ing meanwhile. Finally the City Hall train came along, and it was instantly crowded with grumbling merchants and others. Those who had come from the Grand Cen-tral Depot recognized massengers in a street car who had started of the same time.

NEWS FROM WASHINGTON.

INTERNAL REVENUE CONSOLIDATION. AN EXECUTIVE ORDER ISSUED REDUCING THE DIS-TRICTS-HOW NEW-YORK IS AFFECTED.

[BY TELEGRAPH TO THE TRIBUNE.]

WASHINGTON, June 25 .- To a TRIBUNE corre-

spondent, about three months ago, Deputy Commissioner Rogers, of the Internal Revenue Bureau. cautiously admitted that the number of Internal Revenue districts might safely be reduced by 19; at the same time General Sewell, chief of the special agents, expressed the opinion that there might safely be a reduction of one-third, or 42, in the number of districts. A few weeks before that the House of Representatives voted by a fair majority to reduce the number to 82. Today the President, after having spent many days in the consideration of the subject, ssued an order reducing the number of districts to 82. In the new arrangement State lines have not always been regarded. For example, the Territory of Dakota is added to Nebraska for internal revenue purposes and the Territory of Wyoming is added to Colorado, while Arizona and New-Mexico are consolidated and Nevada is added to the IVth California District. The changes in New-York have been already foreshadowed in THE TRIBUNE. The two districts in New-York City and the Brooklyn district are retained, together with four districts outside of these cities. Rockland County is added to the XIth District, and Collector Bentley is left in charge. The XIIth and XVth Dis ricts (except Rockland County) constitute the new XVth District, with ex-Congressman Smart as Collector. The XXIst, XXiVth and XXVIth Districts form the new XXVIth District, with James Armstrong as Collector, at Utica. The XXVIIIth and XXXth Districts are consolidated, forming the new XXVIIIth District, with Henry S. Pierce as Collector. It is understood that Senator Lapham was able to save his Collector, Mr. Pierce, by his recent visit to Washington. A careful study of the plan of consolidation will be required in order to estimate what special influences, if any, have governed in the selection of officers to be retained in the service. It would appear from a glance at Virginia that Senator Mahone's visit to Washington two or three days ago was not in vain.

The plan of consolidation as officially promulgated is as follows:

The two districts in Alabama are consolidated and Arthur Bingbam is designated as Collector. This is a new appointment. The present Collectors are A. L. Morgan and Jonn A. Steele. The district will be known as the Ist District.

flows through the breaks made yesterday in the Chicago and Alton and other railroad tracks, and it is spreading out and covering more and more bottom land toward the bind's and along the Vandalia Railroad, but no damage to the latter is reported. Reports from points along the Missouri River vary considerably. At some places the water is still rising, while at others it has fallen from a few inches to two feet. It is safe to say, however, that there is considerably more water to come from the region this side of St. Joseph, and the rise here may be a foot higher.

A dispatch from Bismarck says the Yellowstone River is already as high as it was last year, and that the Missouri River is also rising at that point. Telegrams from other places high up the Missouri indicate that the usual June rise has commence; and all likelihood some part of it will reach here before the present flood has receded to any great The Ist and IVth Districts in California are consolidated into one district, to which is also attached the District of Nevada, all to be known as the iVth District of California.
